### Newsday Tuesday

20th September 2021 What's going on this week?

Following the trail of devastation left by Hurricane Ida across parts of North America, US President Biden declared that 'historic investment' is needed to deal with the impact of climate crisis. He has blamed climate change for what's happened and believes the country needs to be better prepared for extreme weather. Hurricane Ida tore across more than 1,500 miles of the USA and was one of the most well-forecast storms in recent memory, causing catastrophic flooding and destroying buildings in its wake.

*Things to talk about at home...*

- ◆ How do you think the people affected by Hurricane Ida may be feeling?
- ◆ When you go through difficult times, are you able to think of the positives?
- ◆ Do you think more money should be provided to help tackle climate change?
